RE: Appraisal Information Export Transfer Layout Files

Dear Client,

We will be making updates to our **Appraisal Information Export** layout for the legislative changes affecting PACS. Due to the staggered effective dates and applicability to our clients, we will implement changes with separate releases. **The export layout is expected to change with each release until further notice.**

### PAC-TX Release R50.3 (Service Pack 3)

*Targeted for September 15*

We have updated the Appraisal Information export layout to account for the **modified application of Personal Property penalties.**

SB 1352 BPP Penalty Calculation, affecting

- Late Freeport
- Late Interstate Allocation
- Rendition Filing

These changes will go into effect with PACS version 8.50.3, in the release targeted for **September**. The Owner/Agent export layout has not changed but the version has been updated to match the appraisal export layout version. Documentation has been included with this communication.

### **What do I need to do?**

In preparation for this change, the new layout version 8\_0\_31 included with this communication needs to be provided to all entities for which you currently send appraisal export and/or owner information accessed through the **File > Export > Appraisal Information** menu path. Any third-party vendors, i.e. software providers that utilize the export, will also need to be notified.

***Interested parties might include:***

- ***CADs using PACS to generate the Appraisal Information Export***
- ***Collection offices separate from the CAD (Non-Shared) but using PACS***
- ***Collection offices importing from a CAD using PACS***
- ***Vendors supporting Collection offices importing from a CAD using PACS***

If you have any questions or concerns, please do not hesitate to contact *Harris Govern Client Services*. Email: [PACS-Support@harriscomputer.com](mailto:PACS-Support@harriscomputer.com)

Sincerely,

PACS-TX Product Team
